CHRISTIE DS30/W

A brief introduction to the Christie DS30/W. The standard portable DLP projector has an SXGA 1280 x 1024 resolution and a contrast of 1000:1. As the projector has horizontal and vertical keystone correction, the projector can be set up with plenty of free space in the room. An image width of up to 464 cm is possible as the projector has 3000 Ansi lumens. However, if room light is available, the picture should be max. 309 cm wide. The operating noise of just 28 decibels makes the projection quiet. The projector was launched in 2003 and is no longer sold by the manufacturer.
