

Christie DS+300/W

CHRISTIE DS+300/W

A brief introduction to the Christie DS+300/W. The standard portable DLP projector has an SXGA+ 1400 x 1050 resolution and a contrast of 2500:1. The built-in lens shift and keystone correction function provides freedom when setting up. The projector can illuminate a picture width of 500 cm well. However, if room light is available, the image width should ideally not exceed 333 cm. The projector is very quiet compared to other projectors with an operating noise of 24 decibels. On the market since 2007, the model is no longer offered by the manufacturer Christie.
