

Davis CineVision MKII

Brief Introduction

Beta 2.5

The Davis CineVision MKII standard portable DLP projector has 600 Ansi lumens, a contrast of 250:1 to Ansi 500:1 and an SVGA 800 x 600 resolution. The lamp life is specified by the manufacturer as 6000 hours, which converts to over 8.2 years at 2 hours per day. 213 cm image width, the projector will be able to illuminate well. However, if room light is available, the picture width should ideally not exceed 142 cm. The projector is no longer sold by the manufacturer. It should also be noted that, unfortunately, there are no more replacement lamps for the projector, neither originals nor replicas.
