The Standard Portable H89 LED LCD has 325 ANSI lumens, a contrast ratio of 10000:1, and HDTV 1920 x 1080 resolution. Manufacturer DBPOWER specifies a service life of 30,000 hours, which equates to over 20.5 years of enjoyment at four hours per day. Since DBPOWER specifies the brightness of the projector in lumens, we have calculated an approximate ANSI lumen value in this case. The projector can illuminate an image width of 183 cm well. However, if there is room lighting, the image width should not exceed 122 cm. The model recognizes Airplay and Miracast screen mirroring signals, making it possible to play high-resolution videos with surround sound directly via Wi-Fi from a smartphone, tablet, or PC (Android, Windows, and iOS). Another extra feature worth mentioning is that the projector can be connected to external wireless speakers via Bluetooth. Furthermore, the projector can play 1080P and 4K (compressed) without any problems.
