

DBPOWER N5

DBPOWER N5

Brief Introduction

Beta 2.5

Manufacturer DBPOWER offers the N5, an LCD LED projector with HDTV 1920 x 1080 resolution. It is an LED projector with a light life of 30,000 hours, which equates to over 20.5 years at 4 hours per day. The projector can illuminate an image width of 203 cm. However, if there is room lighting, the image width should not exceed 135 cm. Since the projector recognizes Airplay and Miracast screen mirroring signals, it is possible to play videos with high resolution and surround sound directly from a smartphone, tablet, or PC (Android, Windows, and iOS) via Wi-Fi. Another extra feature worth mentioning is that the projector can be connected to external wireless speakers via Bluetooth. Furthermore, the projector can play 1080P and 4K (compressed) without any problems.
