

Dell S510n

DELL S510N

Brief Introduction

Beta 2.5

The Whiteboard S510n DLP has 3100 Ansi lumens, a contrast of 8000:1 and a WXGA 1280 x 800 resolution. The projector also offers an integrated media player that can be used to play files directly. The projector is equipped with a microphone jack plug and 10W speakers, so no additional speakers are required for presentations or training courses. The projector can illuminate a screen width of up to 566 cm thanks to its 3100 Ansi lumens. In room light, however, the image width should ideally be less than 377 cm. The projector offers an interactive whiteboard function for interactive training courses and presentations. Furthermore, the projector can play 1080P without any problems. The model was built by Dell in 2015 and is no longer current.
