

DENVER PR-4300

DENVER PR-4300

Brief Introduction

Beta 2.5

With the PR-4300, manufacturer DENVER offers an LCD LED projector with HDTV resolution of 1920 x 1080 and a contrast ratio of 8000:1. The manufacturer specifies an LED lifespan of 30,000 hours, which, based on four hours? viewing per day, would equate to over 20.5 years. As the projector features horizontal and vertical keystone correction, it can be positioned with plenty of space around it in the room. 400 ANSI lumens ensure that an image width of 174 cm is possible. However, if there is ambient light in the room, the image should be no more than 116 cm wide. The projector also has no problem handling 1080p and 4K (compressed) video signals.

Display Type

1 x LCD Panel
HDTV 16/9 Liquid Crystal Display

Ansi-Lumen
