

Digital Projection dVision HD

The Digital Projection dVision HD DLP projector has 2500 Ansi lumens, a contrast of 6000:1 and an HDTV 1280 x 720 resolution. The integrated lens shift gives freedom when positioning the projector. The projector can illuminate an image width of up to 508 cm thanks to its 2500 Ansi lumens. In room light, however, the image width should ideally be less than 339 cm. The projector was launched in 2004 and is no longer sold by the manufacturer, but is still very popular in our projector database.
