The Digital Projection E-Vision Laser 5900 3D laser DLP projector has 5300 Ansi lumens, a contrast of 2000:1 and a WUXGA 1920 x 1200 resolution. The manufacturer specifies a laser service life of 20000 hours, which converts to over 13.7 years at 4 hours per day. A built-in horizontal and vertical keystone correction provides freedom when positioning the projector. An image width of up to 740 cm is possible as the projector has 5300 Ansi lumens. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 493 cm. The model is also Full HD 1080P and 3D compatible. On the market since 2020, the model is no longer offered by the manufacturer Digital Projection.
