

Digital Projection Mercury 930 1080p 3D (Preliminary)

Brief Introduction

Beta 2.5

The Mercury 930 1080p 3D (Preliminary) 3D DLP projector from Digital Projection has 13500 Ansi lumens, a contrast of 2000:1 and an HDTV 1920 x 1080 resolution. With the lens shift function, the projector can be positioned very freely. The projector can illuminate a picture width of 1180 cm well. The projector can manage rooms with residual light with a smaller image width, we recommend a maximum of 787 cm. If the image width is not sufficient, the projector offers integrated edge blending software, which allows several projectors to project a large image together. It is also Full HD 1080P and 3D compatible. The projector was launched in 2013 and is no longer sold by the manufacturer, but is still a very popular projector.

Display Type

3 x 0,96" DLP Chip
HDTV 16/9 Ti Digital Light Processing Chip

Ansi-Lumen

13500 6000 Lux (bei 200 cm Screen)
