A brief introduction to the TITAN sx+ Dual 3D Ultra Contrast: The Digital Projection 3D DLP projector offers 4500 Ansi-Lumen, a contrast of 4000:1 and an SXGA+ 1400 x 1050 resolution. The integrated lens shift gives freedom when positioning the projector. Thanks to the brightness of 4500 Ansi lumens, an image width of 584 cm is possible. The projector can also handle slightly brighter rooms with a smaller image width (we recommend max. 389 cm). Playing 1080P and 3D is also no problem for the projector. The model built in 2008 is no longer offered by Digital Projection.
