The standard portable DIPIKPRJ X9 LED LCD projector has 1600 ANSI lumens, a contrast ratio of 20000:1 and HDTV 1920 x 1080 resolution. The manufacturer specifies an LED service life of 30,000 hours, which equates to over 20.5 years at 4 hours per day. As the projector has horizontal and vertical keystone correction, it can be set up with plenty of space around it. The brightness of 1600 ANSI lumens allows for an image width of 406 cm. In room lighting, the image should be no wider than 271 cm. The model recognizes Airplay and Miracast screen mirroring signals, making it possible to play high-resolution videos with surround sound directly via Wi-Fi from a smartphone, tablet, or PC (Android, Windows, and iOS). In addition, the Bluetooth capability is a useful addition to the projector, especially for wireless audio transmission. Furthermore, the projector can play 1080P and 4K (compressed) without any problems.
