

DreamVision CinemaTen'80

DREAMVISION CINEMATEN'80

The DreamVision model CinemaTen'80 is a DILA projector with HDTV 1920 x 1080 resolution and a contrast of 3500:1. The integrated lens shift gives freedom when positioning the projector. The projector can illuminate an image width of up to 287 cm thanks to its 800 Ansi lumens. In room lighting, however, the picture width should ideally be less than 191 cm. It is also Full HD 1080P compatible. With an operating noise of just 27 decibels, the model is very quiet compared to others. On the market since 2007, the model is no longer offered by the manufacturer DreamVision.
