

DreamVision Dreamy Geek 3

The DreamVision Dreamy Geek 3 LED DLP projector has 870 Ansi lumens, a contrast of 4000:1 and an HDTV 1920 x 1080 resolution. Manufacturer DreamVision specifies a service life of 30,000 hours, which is over 20.5 years if enjoyed for four hours a day. The integrated media player can play files directly. With the lens shift function, the projector can be positioned very freely. As DreamVision specifies the brightness of the projector in lumens, we have calculated an approximate Ansi lumen value in this case. Due to the brightness of 870 Ansi lumens, a picture width of 300 cm is possible. In room light, the picture should be max. 200 cm wide. In addition, thanks to the Bluetooth function, the projector can be flexibly paired with other speakers. It is also Full HD 1080P compatible. The operating noise of just 30 decibels makes the projection quiet.

1 x 0,33" DMD DLP Chip
HDTV 16/9 Ti Digital Light Processing Chip

Projector	870 / 1000 Lumen	387 Lux (bei 200 cm Screen)
