

# DreamVision UST25 4000HDI

DREAMVISION UST25 4000HDI

A brief introduction to the UST25 4000HDI: The DreamVision 3D laser DLP projector offers 4000 Ansi lumens, a contrast of 20000:1 and HDTV 1920 x 1080 resolution. The lifespan of the laser is 30000 hours, which is over 20.5 years with a daily viewing time of 4 hours. The integrated media player can play files directly. An image width of up to 643 cm is possible as the projector has 4000 Ansi lumens. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 429 cm. The projector is equipped with an integrated whiteboard function for interactive training and presentations. Furthermore, the projector can play 1080P and 3D without any problems and can even project Blu-rays onto the ceiling thanks to the 360° projection. The model was built by DreamVision in 2015 and is no longer current, but is still very popular in our projector database.
