

DreamVision X3

DREAMVISION X3

Manufacturer DreamVision offers the X3, a DLP projector with HDTV 1280 x 720 pixel resolution and a contrast of 4300:1. The projector also offers a lens shift function, which makes setting up the image childs play. Thanks to the brightness of 3460 Ansi lumens, a picture width of 598 cm is possible. The projector can also handle slightly brighter rooms with a narrower image width (we recommend max. 399 cm). The model is also Full HD 1080P compatible. The projector is very quiet compared to others with 28 decibels of operating noise. The model built in 2004 is no longer offered by DreamVision.
