

Dukane ImagePro 6650QL

DUKANE IMAGEPRO 6650QL

The stationary ImagePro 6650QL laser DLP projector from Dukane has 5200 Ansi lumens, a contrast of 500000:1 and a UHD (4K2K) 3840 x 2160 resolution. Thanks to the laser, the service life is 20000 hours, which is over 13.7 years if enjoyed for four hours a day. With the lens shift function, the projector can be positioned very freely. The projector can illuminate a picture width of 733 cm well. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 489 cm here. Video signals 1080P and 4K are also no problem for the projector. Even projection onto the ceiling is possible thanks to the 360° projection. On the market since 2021, the model is no longer offered by the manufacturer Dukane.

Brief Introduction Beta 2.5
