The standard portable Dukane ImagePro 8961WU LCD projector has 5000 Ansi lumens, a contrast of 10000:1 and a WUXGA 1920 x 1200 resolution. The lamp life is up to 4000 hours, which is over 5.5 years with a daily viewing time of 2 hours. Horizontal and vertical keystone correction makes setting up the picture childs play. 5000 Ansi lumens ensure that a picture width of 718 cm is also possible. Rooms with residual light can be created by the projector with a smaller image width, we recommend a maximum of 479 cm. If the image width is not sufficient, the projector offers integrated edge blending software, which allows several projectors to project a large image together. Furthermore, the projector can play 1080P without any problems. This model is no longer offered by Dukane.
