

Dukane ImagePro 8978W

DUKANE IMAGEPRO 8978W

The ImagePro 8978W LCD projector from Dukane has 6500 Ansi lumens, a contrast of 3000:1 and a WXGA 1280 x 800 resolution. The projector is equipped with an integrated media player, so direct playback of files will not be a problem. Thanks to the horizontal and vertical keystone correction, the projector can be positioned very freely. The projector will be able to illuminate a picture width of 819 cm well. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 546 cm here. Furthermore, the projector can play 1080P without any problems and even has the option of projecting HD 1080P Blu-rays onto the ceiling using 360° projection. The projector was launched in 2013 and is no longer sold by the manufacturer.

Brief Introduction

Beta 2.5
