

Eiki EK-110U

EIKI EK-110U

The Eiki EK-110U standard portable LCD projector has 3600 Ansi lumens, a contrast of 10000:1 and a WUXGA 1920 x 1200 resolution. The lamp life is specified by the manufacturer as 10000 hours, which is over 13.7 years if enjoyed for two hours a day. As the projector has horizontal and vertical keystone correction, the projector can be set up with plenty of free space in the room. The projector can illuminate images up to 610 cm wide thanks to its 3600 Ansi lumens. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 407 cm. With the HDMI MHL port, the smartphone image can be transmitted to the projector in Full HD at 60 Hz by screen mirroring and the smartphone is charged at the same time. With an operating noise of just 30 decibels, the model is already very quiet compared to others. The model built in 2017 is no longer offered by Eiki.
