

Eiki LC XT6

EIKI LC XT6

A brief introduction to the LC XT6: The Eiki large-format LCD projector offers 16000 Ansi lumens, a contrast of 2500:1 and an XGA 1024 x 768 resolution. The integrated lens shift gives you freedom when positioning the projector. The projector can illuminate images up to 1102 cm wide thanks to its 16000 Ansi lumens. The projector can create rooms with residual light with a smaller image width, max. 735 cm is recommended. If the image width is not sufficient, the projector offers integrated edge blending software, which allows several projectors to project a large image together. Even 1080P video signals are no problem for the projector. Even projection onto the ceiling is possible thanks to the 360° projection. It was launched in 2013 and is no longer offered by the manufacturer Eiki, but is still a popular projector in our database.
