

Einyoumily HY300 Pro+

EAN/UPC:B0GVN266X6

Brief Introduction

Beta 2.5

The Einyoumily HY300 Pro+ LED LCD projector has 500 ANSI lumens, a contrast ratio of 10,000:1, and an HDTV resolution of 1280 x 720. It is an LED projector with a light source lifespan of 30,000 hours, which would equate to over 20.5 years at 4 hours of use per day. The built-in media player can play files directly. Horizontal and vertical keystone correction makes image setup a breeze. With 500 ANSI lumens, an image width of up to 144 cm is possible. However, if there is ambient light in the room, the image should be no wider than 96 cm. The projector supports AirPlay and Miracast screen mirroring, which allows for the direct playback of high-resolution videos and surround sound via Wi-Fi from smartphones, tablets, and PCs running Android, Windows, or iOS. In addition, the Bluetooth capability is a useful feature for the projector, particularly for wireless audio transmission. Furthermore, the projector can play 1080p and 4K (compressed) content without any issues. At just 25 decibels, the device is among the quieter projectors.
