

Epson EB-L1405U

EPSON EB-L1405U

With the EB-L1405U, manufacturer Epson offers a stationary LCD laser projector with UHD (4K2K) 3840 x 2160 resolution and a contrast of 2000000:1. The manufacturer Epson specifies a service life of 20000 hours, which is equivalent to over 13.7 years at 4 hours per day. The integrated lens shift gives freedom when positioning the projector. An image width of up to 909 cm is possible as the projector has 8000 Ansi lumens. The projector creates rooms with residual light with a smaller image width, max. 606 cm is recommended. In the event that the image is still too small, the projector offers integrated edge blending software, with which several projectors can project a large image together. Even 1080P and 4K video signals are no problem for the projector. Even projection onto the ceiling is possible thanks to the 360° projection. On the market since 2016, the model is no longer offered by the manufacturer Epson.
