

Epson CH-A100

EPSON CH-A100

Brief Introduction

Beta 2.5

The Epson CH-A100 LCD home theater projector has 3,750 ANSI lumens and an HDTV resolution of 1920 x 1080. The projector's lamp is rated for 12,000 hours of lamp life, which equates to over 16.4 years if used for two hours daily. Thanks to horizontal and vertical keystone correction, the projector can be positioned with great flexibility. Since Epson specifies the projector's brightness in lumens, we have calculated an approximate ANSI-lumen value in this case. 3,750 ANSI lumens ensure that an image width of up to 622 cm is possible. In rooms with ambient light, the projector can achieve a narrower image width; we would recommend a maximum of 415 cm. This model supports optional AirPlay and Miracast screen mirroring, making it possible to stream high-resolution videos with surround sound directly over Wi-Fi from a smartphone, tablet, or PC (Android, Windows, and iOS). Even 1080p video signals are no problem for the projector.

Display Type

3 x 0,62" LCD TFT Panel
