

Epson EB-2155W

EPSON EB-2155W

The standard portable EB-2155W LCD has 5000 ANSI lumens, a contrast ratio of 15000:1, and a WXGA 1280 x 800 resolution. Manufacturer Epson specifies the lamp life as 10,000 hours, which would be over 13.7 years if viewed for 2 hours a day. It includes an integrated media player that allows files to be played directly. The horizontal and vertical keystone correction provides flexibility when setting up. The projector can illuminate images up to 718 cm wide thanks to its 5000 ANSI lumens. The projector can handle rooms with residual light with a smaller image width; we would recommend a maximum of 479 cm. The HDMI MHL (Mobile High-Definition Link) port allows 1080p/60 Hz image mirroring (screen mirroring) from a smartphone while it is being charged via the connection. Even 1080P video signals are no problem for the projector. Launched in 2017, this model is no longer available from the manufacturer Epson.

Brief Introduction Beta 2.5
