

Epson EB-W49

EPSON EB-W49

A brief introduction to the Epson EB-W49. The LCD projector has a resolution and contrast of 16000:1. The lamp life is up to 17000 hours, which is over 23.3 years if enjoyed for two hours a day. The projector also offers an integrated media player that can be used to play files directly. As the projector has horizontal and vertical keystone correction, the projector can be set up with plenty of free space in the room. 3800 Ansi lumens ensure that a picture width of 522 cm is also possible. The projector creates rooms with residual light with a smaller image width, we recommend a maximum of 348 cm. Furthermore, the projector can play 1080P without any problems.

Brief Introduction Beta 2.5

Display Type

3 x 0,59" LCD TFT Panel
SXGA 5/4 Liquid Crystal Display
