

Epson EH-TW9300W

EPSON EH-TW9300W

The Epson EH-TW9300W 3D LCD projector has 2500 Ansi lumens, a contrast of 1000000:1 and a UHD (4K2K) 3840 x 2160 resolution. The integrated lens shift provides freedom when positioning the projector. 508 cm image width, the projector will be able to illuminate well. However, if room light is available, the image width should ideally not exceed 339 cm. A smartphone with MHL connection can be connected directly to the MHL/HDMI port to perform 1080p / 60 Hz image mirroring (screen mirroring). Furthermore, the projector can play 1080P and 4K as well as 3D without any problems, meaning that all currently available Blu-ray formats can be recognized by the projector. At just 24 decibels, the device is one of the quieter projectors. The projector was launched in 2016 and is no longer sold by the manufacturer, but is still one of the most popular projectors.
