

Epson USA PowerLite Pro Cinema 31000

EPSON USA POWERLITE PRO CINEMA

A brief introduction to the Epson USA PowerLite Pro Cinema 31000. The high-end home cinema LCD projector has an HDTV 1920 x 1080 resolution and a contrast of 500000:1. An image width of up to 352 cm is possible. However, the image should be smaller in room light. We recommend max. 235 cm. Even 1080P video signals are no problem for the projector. The projector is very quiet compared to other projectors with an operating noise of 21 decibels. On the market since 2010, the model is no longer offered by the manufacturer Epson USA.
