

Epson USA PowerLite Pro G6870 /NL

The stationary PowerLite Pro G6870 /NL LCD has 7000 Ansi lumens, a contrast of 5000:1 and an XGA 1024 x 768 resolution. The built-in lens shift and keystone correction function provides freedom when setting up. The projector will be able to illuminate an image width of 729 cm well. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 486 cm here. Playing 1080P is also no problem for the projector, and it even has the option of projecting HD 1080P Blu-rays onto the ceiling thanks to 360° projection. On the market since 2015, the model is no longer offered by the manufacturer Epson USA.
