

Epson USA EpiqVision Mini EF11

EPSON USA EPIQVISION MINI EF11

A brief introduction to the EpiqVision Mini EF11: The Epson USA LCD projector offers 1000 Ansi lumens, a contrast of 2500000:1 and a resolution. Including an integrated media player with which files can be played directly. Thanks to the horizontal and vertical keystone correction, the projector can be positioned very freely. 1000 Ansi lumens ensure that a picture width of 321 cm is also possible. However, if room light is available, the picture should be a maximum of 214 cm wide. As the projector recognizes Miracast screen mirroring signals, it is possible to play videos with high resolution and surround sound directly via Wi-Fi from a smartphone, tablet or PC (Android, Windows and iOS). Even 1080P video signals are no problem for the projector. At 27 decibels, the projector is very quiet compared to other projectors. It was launched in 2020 and is no longer offered by the manufacturer Epson USA.
