

# Epson USA Lifestudio Pop Plus Black

EPSON USA LIFESTUDIO POP PLUS

The Standard Portable Lifestudio Pop Plus Black LED LCD has 875 ANSI lumens, a contrast ratio of 5000000:1, and an HDTV 1920 x 1080 resolution. The manufacturer specifies an LED service life of 20,000 hours, which equates to over 13.7 years of enjoyment at four hours per day. The horizontal and vertical keystone correction provides flexibility when setting up. The brightness of 875 ANSI lumens allows for an image width of 301 cm. In room lighting, the image should be a maximum of 201 cm wide. Google TV turns the projector into a versatile media hub that can be seamlessly integrated into a smart home. The projector has Chromecast, Airplay, and Miracast screen mirroring support, which allows high-resolution videos and surround sound to be played directly from smartphones, tablets, and PCs running Android, Windows, or iOS via Wi-Fi. Another extra feature worth mentioning is that the Bluetooth function allows the projector to be connected to external wireless speakers. It is also Full HD 1080P compatible. At just 24 decibels, the device is one of the quieter projectors available.
