

Epson USA PowerLite L200X

EPSON USA POWERLITE L200X

The Epson USA PowerLite L200X laser LCD projector has 4200 Ansi lumens, a contrast of 2500000:1 and an XGA 1024 x 768 resolution. Due to the laser, the projector is specified with 20000 hours of light life, which converts to over 13.7 years at 4 hours per day. The projector also offers an integrated media player that can be used to play files directly. A built-in horizontal and vertical keystone correction provides freedom when positioning the projector. As the PowerLite L200X is equipped with a microphone jack and 16W speakers, no additional audio system is required for presentations or training courses. An image width of up to 564 cm is possible as the projector has 4200 Ansi lumens. The projector creates rooms with residual light with a smaller image width, we recommend a maximum of 376 cm. Even 1080P video signals are no problem for the projector.

 3 x LCD TFT Panel
XGA 4/3 Liquid Crystal Display
