

Epson USA QL7000 B/W

EPSON USA QL7000 B/W

Manufacturer Epson USA offers the QL7000 B/W, a home theater LCD laser projector with UHD (4K2K) 3840 x 2160 resolution and a contrast of 3000:1. The laser light source has a lifespan of 20000 hours, which is the equivalent of 13.7 years at 4 hours per day. The built-in lens shift and keystone correction function provides freedom when adjusting the projection. The brightness of 10,000 ANSI lumens makes a screen width of 1016 cm possible. The projector can also handle slightly brighter rooms with a smaller screen width (we recommend a maximum of 677 cm). Furthermore, it is Full HD 1080P and 4K compatible. At 28 decibels, the projector is very quiet compared to others.
