

ETOE E2

ETOE E2

The micro-portable ETOE E2 LED LCD projector has 500 Ansi-Lumen, a contrast of 3000:1 and a HDTV 1920 x 1080 resolution. It is an LED projector with 50000 hours of light life, which is 34.2 years with four hours of use per day. Includes an integrated media player that can be used to play files directly. Horizontal and vertical keystone correction makes setting up the picture childs play. The projector will be able to illuminate the 227 cm picture width well. However, if room light is available, the picture width should ideally not exceed 151 cm. The projector has screen mirroring support, which enables direct playback of videos in high resolution and surround sound from smartphones, tablets and PCs with Android, Windows or iOS via Wi-Fi. In addition, the Bluetooth option is a useful addition to the projector, especially for wireless audio transmission. The model is also Full HD 1080P and 4K (compressed) compatible.

Brief Introduction

Beta 2.5
