

ETOE E2 Pro

ETOE E2 PRO

Brief Introduction

Beta 2.5

The micro-portable ETOE E2 Pro LED LCD projector has 500 Ansi lumens and an HDTV 1920 x 1080 resolution. The lifespan of the LEDs is 50,000 hours, which is over 34.2 years if enjoyed for four hours a day. The projector also offers an integrated media player that can be used to play files directly. The horizontal and vertical keystone correction provides leeway when setting up. The projector can illuminate a picture width of up to 227 cm well thanks to its 500 Ansi lumens. In room light, however, the picture width should ideally be less than 151 cm. As the projector recognizes screen mirroring signals, it is possible to play videos with a high resolution and surround sound directly from a smartphone, tablet, PC (Android, Windows and iOS) via WLAN. In addition, the Bluetooth option is a useful addition to the projector, especially for wireless audio transmission. Furthermore, the projector can play 1080P and 4K (compressed) without any problems.
