

EUARY K1

EUARY K1

Manufacturer EUARY offers the K1, a standard portable LCD LED projector with HDTV 1920 x 1080 resolution. It is an LED projector with a 30,000-hour light lifespan, which would be over 20.5 years with 4 hours of viewing per day. It can project images up to 249 cm wide. However, the image should be smaller in room light. We recommend a maximum of 166 cm. The built-in 8000mAh / 2.5h battery means that no power supply is required, allowing the projector to be set up quickly and flexibly. Since the projector recognises Airplay, Miracast Screen Mirroring signals, it is possible to play videos with high resolution and surround sound directly from a smartphone, tablet, PC (Android, Windows and iOS) via WLAN. In addition, the Bluetooth option is a useful addition for the projector, especially for wireless audio transmission. Furthermore, the projector can play 1080P without any problems.
