

FEARWIKY HY300

FEARWIKY HY300

With the HY300, manufacturer FEARWIKY offers an LCD LED projector with HDTV 1280 x 720 resolution and a contrast of 1500:1. The manufacturer FEARWIKY specifies a service life of 30,000 hours, which is equivalent to over 20.5 years at 4 hours per day. The integrated media player allows files to be played directly. The horizontal and vertical keystone correction provides leeway when setting up. An image width of up to 144 cm is possible as the projector has 200 Ansi lumens. However, if there is room light, the picture should be max. 96 cm wide. As the projector recognizes Airplay, Miracast Screen Mirroring signals, it is possible to play videos with a high resolution and surround sound directly from a smartphone, tablet, PC (Android, Windows and iOS) via WLAN. In addition, the Bluetooth option is a useful addition to the projector, especially for wireless audio transmission. Even 1080P and 4K (compressed) video signals are no problem for the projector. The operating noise of just 25 decibels makes the projection quiet.

Brief Introduction

Display Type

1 x LCD TFT Panel
HDTV 16/9 Liquid Crystal Display

Ansi-Lumen

200

89 Lux (bei 200 cm Screen)
