

FEARWIKY P7

FEARWIKY P7

The standard portable FEARWIKY P7 LED LCD projector has 600 ANSI lumens, a contrast ratio of 20000:1 and an HDTV 1920 x 1080 resolution. The manufacturer FEARWIKY states a lifespan of 30000 hours, which would be the equivalent of over 20.5 years at 4 hours a day. A screen width of up to 249 cm is possible. However, the picture should be smaller in room light. We recommend max. 166 cm. The projector has Airplay, Miracast Screen Mirroring support, which allows high-resolution video and surround sound to be played directly from smartphones, tablets and PCs running Android, Windows or iOS via Wi-Fi. In addition, thanks to the Bluetooth function, the projector can be flexibly connected to other speakers. Furthermore, the projector can play 1080P and 4K (compressed) without any problems.
