The FUDONI GC888 LED LCD projector has 600 ANSI lumens, a contrast ratio of 20,000:1 and an HDTV 1920 x 1080 resolution. The manufacturer, FUDONI, states a lifespan of 30,000 hours, which is the equivalent of over 20.5 years at 4 hours per day. The projector can illuminate a screen up to 249 cm wide well thanks to its 600 ANSI lumens. However, the screen width should ideally be less than 166 cm in a room with ambient light. The model recognizes Airplay and Miracast Screen Mirroring signals, making it possible to play high-resolution videos and surround sound directly from a smartphone, tablet or PC (Android, Windows and iOS) via Wi-Fi. The model is also compatible with Full HD 1080P and 4K (compressed).
