EAN/UPC:B0DSZQ1MB9

FUDONI GC888A

The Fudoni model GC888A is an LCD LED projector with HDTV 1920 x 1080 resolution and a contrast ratio of 2000:1. Manufacturer Fudoni specifies a lifespan of 30,000 hours, which equates to over 20.5 years if used for four hours a day. Since the projector features horizontal and vertical keystone correction, it can be set up with plenty of space in the room. Thanks to its 320 ANSI lumens, the projector can effectively illuminate an image width of up to 249 cm. However, in room lighting, the image width should ideally be less than 166 cm. The projector supports AirPlay and Miracast screen mirroring, allowing for the direct playback of high-resolution videos and surround sound via Wi-Fi from smartphones, tablets, and PCs running Android, Windows, or iOS. Another notable feature is that the projector can be connected to external wireless speakers via Bluetooth. Playing 1080p and 4K (compressed) content is also no problem for the projector.
