

FUDONI S1

FUDONI S1

A brief introduction to the S1: The FUDONI LED LCD projector offers 600 ANSI lumens, a contrast ratio of 20,000:1 and HDTV 1920 x 1080 resolution. The projectors LEDs have a lifespan of 30,000 hours, which, at 4 hours of viewing per day, would be over 20.5 years. The projector can be set up in a variety of positions thanks to the horizontal and vertical keystone correction. An image width of up to 249 cm is possible. However, the image should be smaller in room light. We recommend a maximum of 166 cm. Since the projector recognizes Airplay, Miracast Screen Mirroring signals, it is possible to play videos with high resolution and surround sound directly from a smartphone, tablet, PC (Android, Windows and iOS) via WLAN. In addition, the Bluetooth option is a useful addition for the projector, especially for wireless audio transmission. Furthermore, it is Full HD 1080P and 4K (compressed) compatible.
