Data

A brief introduction to the Fujix P40E. The LCD projector has a resolution and contrast of very low. As Fujix specifies the brightness of the projector in lumens, we have calculated an approximate Ansi lumen value in this case. 87 Ansi lumens ensure that a picture width of 81 cm is also possible. However, if room light is available, the picture should be max. 54 cm wide. The model is no longer offered by Fujix.

1 x LCD TFT Panel
4/3 Liquid Crystal Display

Projector

87 100 Lumen
