

Fuss FP-359D

Brief Introduction

Beta 2.5

The Fuss FP-359D LED DLP projector has 1000 Ansi lumens and a WVGA 854 x 480 resolution. The lifespan of the LEDs is 20000 hours, which is over 13.7 years with a daily viewing time of 4 hours. The projector also offers an integrated media player that can be used to play files directly. The projector can illuminate a picture width of up to 321 cm thanks to its 1000 Ansi lumens. In room lighting, however, the image width should ideally be less than 214 cm. A smartphone with an MHL connection can be connected directly to the MHL/HDMI port and transmit a 1080p / 60 Hz image mirroring (screen mirroring) while the smartphone is being charged at the same time. It was launched on the market in 2016 and is no longer offered by the manufacturer Fuss.

Display Type
