

Giaomar 5G Wifi C12

Brief Introduction

Beta 2.5

The Giaomar 5G Wifi C12 LED LCD projector has 300 Ansi lumens, a contrast of 10000:1 and an HDTV 1920 x 1080 resolution. The manufacturer Giaomar specifies a service life of 30000 hours, which is equivalent to over 20.5 years at 4 hours per day. Due to the brightness of 300 Ansi lumens, a picture width of 176 cm is possible. In room light, the picture should be max. 117 cm wide. The model recognizes screen mirroring signals, so it is possible to play videos with high resolution and surround sound directly via WLAN from a smartphone, tablet or PC (Android, Windows and iOS). Thanks to the Bluetooth function, the projector can also be flexibly paired with other speakers. Playing 1080P and 4K (compressed) is also no problem for the projector.

Display Type

1 x LCD TFT Panel
