

GooDee WiFi Bluetooth Mini Projector

GOODEE WIFI BLUETOOTH MINI

Brief Introduction

Beta 2.5

The GooDee WiFi Bluetooth Mini Projector Micro-Portable LED DLP projector has 500 ANSI lumens and an HDTV 1280 x 720 resolution. The manufacturer, GooDee, states a lifespan of 30,000 hours, which, at 4 hours of viewing per day, would be over 20.5 years. The projector can illuminate a screen up to 227 cm wide with its 500 ANSI lumens. However, in a room with ambient light, the screen should ideally be no wider than 151 cm. The built-in 8000 mAh battery eliminates the need for a power supply, allowing the projector to be set up quickly and flexibly. The model recognizes Airplay and Miracast Screen Mirroring signals, making it possible to play videos with high resolution and surround sound directly from a smartphone, tablet or PC (Android, Windows and iOS) via WLAN. In addition, the projector can be flexibly connected to other speakers thanks to the Bluetooth function. Playing 1080P is also no problem for the projector.
