

Gygar LM34

Brief Introduction

Beta 2.5

With the LM34, manufacturer Gygar offers an LCD projector with XGA 1024 x 768 resolution and a contrast of 10000:1. The projector also offers an integrated media player for direct playback of files. Thanks to the horizontal and vertical keystone correction, the projector can be positioned very freely. 4500 Ansi lumens ensure that a picture width of 584 cm is also possible. The projector creates rooms with residual light with a smaller image width, max. 389 cm is recommended. The model built in 2014 is no longer offered by Gygar.

 3 x 0,63" LCD TFT Panel
