## Audio

The Hisense C3 Ultra Max 3D Laser DLP home theater projector has 5,000 ANSI lumens, a contrast ratio of 5,000:1, and a UHD (4K2K) resolution of 3,840 x 2,160. Thanks to the laser, the projector has a lifespan of 25,000 hours, which would equate to over 17.1 years at 4 hours of use per day. The built-in media player can play files directly. An image width of up to 518 cm is possible; if the image width is smaller (we recommend a maximum of 345 cm), even rooms with ambient light are no problem. The projector supports AirPlay and Miracast screen mirroring, allowing you to stream high-resolution videos and surround sound directly from smartphones, tablets, and PCs running Android, Windows, or iOS via Wi-Fi. Another notable feature is that the projector can be connected to external wireless speakers via Bluetooth. Furthermore, it is compatible with Full HD 1080p, 4K, and 3D, meaning the projector can recognize all currently available Blu-ray formats.
