

Hitachi CP-X5550

HITACHI CP-X5550

With the CP-X5550, manufacturer Hitachi offers a standard portable LCD projector with XGA 1024 x 768 resolution and a contrast of 10000:1. The manufacturer Hitachi specifies a lamp life of 4000 hours, which is over 5.5 years with two hours of use per day. As the projector has horizontal and vertical keystone correction, the projector can be set up with plenty of free space in the room. The projector can illuminate images up to 663 cm wide thanks to its 5800 Ansi lumens. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 442 cm. If the image is still too small, the integrated edge blending software can help to project a larger image with additional projectors. Playing 1080P is also no problem for the projector. The model built in 2016 is no longer offered by Hitachi.

Brief Introduction Beta 2.5

Display Type

3 x LCD TFT Panel
XGA 4/3 Liquid Crystal Display
