

HongTianPao HD168

The standard portable HD168 LCD has 126 Ansi lumens, a contrast of 800:1 and a VGA 640 x 480 resolution. The lamp of the projector is specified with a lamp life of 6000 hours, which is over 8.2 years with a daily viewing time of 2 hours. As HongTianPao specifies the brightness of the projector in lumens, we have calculated an approximate ansi-lumen value in this case. 98 cm picture width the projector will be able to illuminate well. However, if there is room light, the picture width should ideally not exceed 65 cm. It is also Full HD 1080P compatible. It is no longer offered by the manufacturer HongTianPao. It should also be noted that there are unfortunately no more replacement lamps for the projector, neither original nor replica.

1 x 5" LCD TFT Panel
VGA 4/3 Liquid Crystal Display

126 / 2100 Lumen
800:1 full on/off
