INFOCUS GENESIS IN118BBST

The InFocus Genesis IN118BBST model is a DLP projector with HDTV 1920 x 1080 resolution and a contrast of 30000:1. The manufacturer InFocus specifies a lamp life of 10000 hours, which is over 13.7 years if enjoyed for two hours a day. As this is a short-throw projector, it can be placed very close to the wall. For a 2 m wide picture, the projector only needs to be 100 cm away from the screen. Even 1080P video signals and 3D are no problem for the projector. The projector is very quiet compared to others with an operating noise of 30 decibels. It should also be noted that there are unfortunately no longer any replacement lamps for the projector, neither originals nor replicas.
